

Priyanka Panchal

Aspiring Web Developer | MERN Stack Enthusiast | B.E. IT Student – GTU

Ahmedabad Gujrat | +91 8401902996 | priyankapanchal2004@gmail.com | www.linkedin.com/in/priyanka-panchal-1b4794289/ | github.com/Priyanka-44 | <https://portfolio-website-nine-red-phze0o2koz.vercel.app>

PROFILE

Aspiring Web Developer skilled in the **MERN stack (MongoDB, Express.js, React.js, Node.js)** with strong hands-on practice in building responsive, user-focused web applications. Passionate about clean UI, efficient backend development, and creating real-world projects. Comfortable working both **independently and in a team**. Always eager to **learn new technologies and improve development skills..**

EDUCATION

Bachelor of Engineering, IT

SAL Engineering and Technical Institute, Gujarat Technological University (gtu.ac.in/)

Graduation July 2026 | Current GPA (8.30/10)

Currently pursuing core IT subjects with emphasis on web development, data structures, and software engineering.

Diploma of Engineering, IT

Government Polytechnic for Girls College, Gujarat Technological University (gtu.ac.in/)

March 2020 – Aug 2023 | (GPA– 8.11/10)

Completed a comprehensive 3-year program focused on programming, web technologies, and hands-on project- based learning.

SKILLS

Frontend: HTML5, CSS3, JavaScript.

Libraries: React.

Backend: Node.js, Express.js,

Database: MongoDB.

Tools & Platforms: Git, GitHub, Visual Studio Code, Postman, Stack Overflow,

Additional: Familiar with AI-assisted tools like ChatGPT and Claude for debugging and idea generation.

EXPERIENCE

Project Intern – Web Development (Python/Django)

Infolabz IT Services Pvt. Ltd., Ahmedabad – May 2023

Project: Way to Interior

Developed core modules for a web platform connecting users with interior designers using Python and Django. Focused on building responsive interfaces and secure backend functionality. Applied industry practices such as modular coding, version control, and structured testing

MERN Stack Intern

CreArt Solutions – July 2 to July 16, 2025

Project: Hospital Management System

Built and tested full-stack features using MongoDB, Express.js, React.js, and Node.js. Implemented CRUD operations, user authentication, and REST API integrations. Gained practical exposure to backend logic and frontend component design in a teambased environment.

MERN Stack Intern

Tabdelta Solutions Private Limited – Jan 1, 2026 to Mar 31, 2026

Project: California Cricket Academy Online Booking Portal

Built and tested full-stack features using MongoDB, Express.js, React.js, Node.js, and REST APIs. Developed responsive frontend pages, implemented user authentication, booking modules, role-based dashboards, and CRUD operations. Gained hands-on experience in backend logic, database integration, and team-based project development.

PROJECTS

Portfolio Website

Personal Project | Designed and developed a fully responsive personal portfolio website to professionally showcase profile, technical skills, internship experience, certifications, and real-world projects. Implemented smooth navigation, interactive UI animations, project GitHub integration, resume download functionality, and recruiter-friendly contact section.

Tech Stack: React.js, Tailwind CSS, Framer Motion, Vite, JavaScript

California Cricket Academy Online Booking Portal

Personal Project | Developed a full-stack MERN web application for online cricket academy program booking and user management with role-based dashboards, secure authentication, and responsive UI.

Tech Stack: MongoDB, Express.js, React.js, Node.js

Hospital Management System

Internship Project | Created a full-stack application for managing hospital operations with role-based access, patient & doctor records, appointments, and administrative control.

Tech Stack: MERN (MongoDB, Express.js, React.js, Node.js)

Way To Interior

Developed a full-stack web platform connecting users with interior designers for remote project collaboration and bid-based hiring system.

Users can explore design portfolios, post project requirements, compare bids, and directly connect with designers.

Tech Stack: MongoDB, Express.js, React.js, Node.js (MERN Stack), HTML, CSS, JavaScript

GAMES : Type-Rush & Colour Storm

Personal Project | Developed two interactive browser-based games - a Typing Speed Game and a Color Matching Challenge — with engaging UI and dynamic logic. The Typing Game features random sentence generation, timer-based gameplay, and automatic score updates. The Color Matching Game includes selectable difficulty levels, high score tracking, timer functionality, and responsive color matching logic.

Tech Stack: HTML, CSS, JavaScript

Prynx-AI

Personal Project | Created a full-stack smart chatbot application with voice & text communication, multi-activity support (YouTube, Google, Timer, Notes, OS-level commands), and an attractive futuristic UI with role-based control.

Tech Stack: MERN (MongoDB, Express.js, React.js, Node.js)

CERTIFICATES

Diploma in Multimedia and Computer Programming (DMCP) – C-DAC

2020

Completed certified training in multimedia design, application development, and core programming fundamentals.

Diploma in Information Technology – GTU

Completed: August 2023

Successfully completed Diploma in IT with CGPA 8.11/10.

Project Completion Certificate – Infolabz IT Services Pvt. Ltd., Ahmedabad May 2023

Awarded for successfully developing the Way to Interior web platform using Python and Django as part of the Diploma final year curriculum.

MERN Stack Internship Completion Certificate – Tabdelta Solutions, Ahmedabad

Jan 2026 – Mar 2026

Successfully completed a 12-week internship in MERN Stack Development, where I worked on clean and reusable code, unit testing, debugging, project workflows, and documentation while contributing to real-world full-stack development tasks.
